We Made It!

It is no secret that all of us have endured a lot of stress this last quarter of school. Families had stress from students suddenly being at home all day and parents having to play an even larger role in their children’s education. That family stress was often compounded by childcare, job and financial stressors. Staff members dealt with emotional stress from lack of contact with students and each other, and professional stress from wanting to do the best they could to facilitate learning with a completely new format.

Somehow, we made it to the end of the school year. The vast majority of students stayed connected to school, learning took place and teachers and students acquired a variety of new skill sets that will benefit them when we return to instruction this fall.

What’s Next?

In short, who knows? My crystal ball certainly did not work when I guessed that the Corona Virus was not going to have a big effect on KPBSD. Therefore I am not going to make any predictions other than, whatever is thrown at us we will work successfully as a school family to deal with it for the benefit of our students and children.

Thank You!

We love our families and appreciate all you did to help us through these trying times. Thank you for staying positive, for the messages of encouragement and the extra work you did to help your children.

Breathe!

As always, whenever you can, take three big, slow breaths. Five seconds in your nose, five seconds back out your mouth. Think positive thoughts, chill out and make it a great day.

Kenai Peninsula Borough School District

Hello Mountain View Family!

Wow, what a spring we have had! I have to congratulate parents and students for doing such a great job of adjusting to learning on line. You rocked it!!!

That being said...we sure missed seeing and interacting with students every day...it was really lonely at the school without them.

Hopefully, the summer will bring us beautiful Alaskan weather and fewer COVID 19 cases so we can slowly and safely resume our normal activities following our government mandates. It has worked for us so far...let's keep up the good work.

It is with mixed emotions that I tell you I will not be here next year. I am retiring. I have been a Nurse for 44 years and have been blessed to be your School Nurse for 3 years. I have loved Mountain View Elementary and all of the students and staff. I hope to become a volunteer, so you will probably still see me around...just not as the Nurse.

Have a wonderful summer and keep washing your hands!!!

Thank you for everything!

Nurse Debbie
